About us

Qingdao Boss Flame Retardant Textile Materials Co, Ltd, established in 2008 is located in the beautiful seaside city - Qingdao, covering an area of 40000 square meters.

Qdboss has been committed to R & D, manufacturing and sales of building flame-retardant products and acoustic products, such as polyester fiber acoustic panel, Fabric wrapped acoustic panel, fiberglass acoustic ceiling, flame retardant fabric and etc. With high quality and competitive price, our products have been exported to more than 50 countries.

All of our products have passed national or international tests. We have obtained 7 national patents. We have faith in innovation, quality and efficiency. Warmly welcome all fields of friends to visit our company and negotiate business.

Glass Wool Ceiling

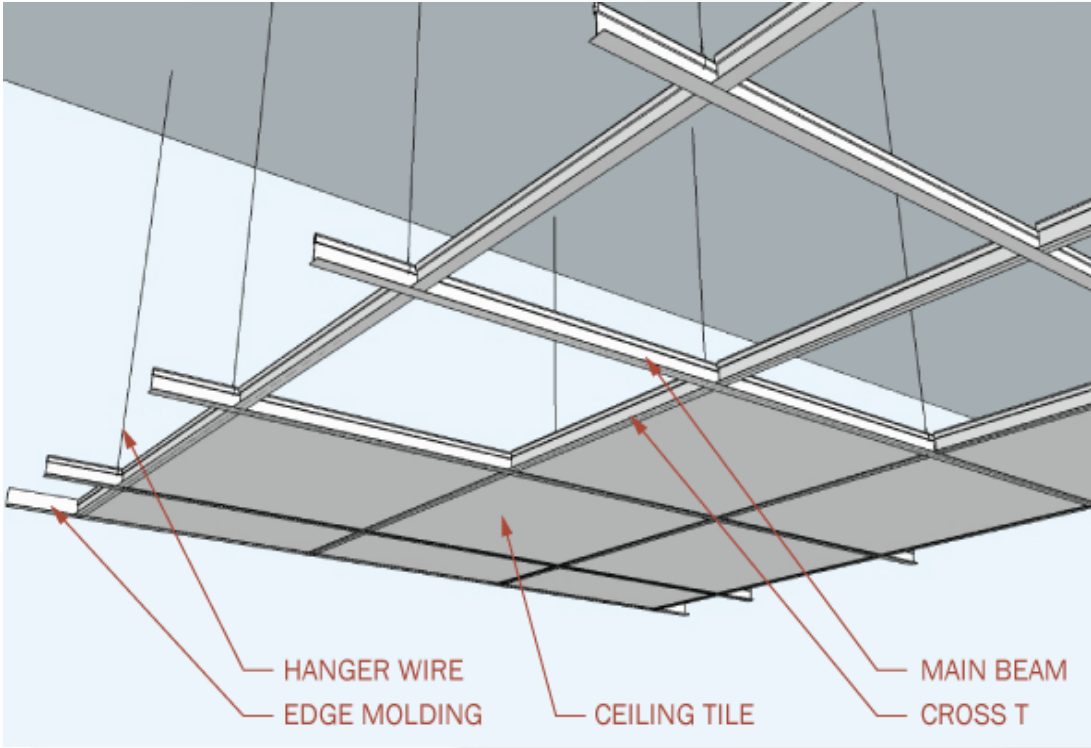

-  Incombustible, Class A
-  Sound absorbing,
-  ECO-friendly, Grade E1
-  Thermal insulation

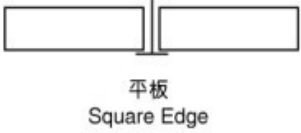

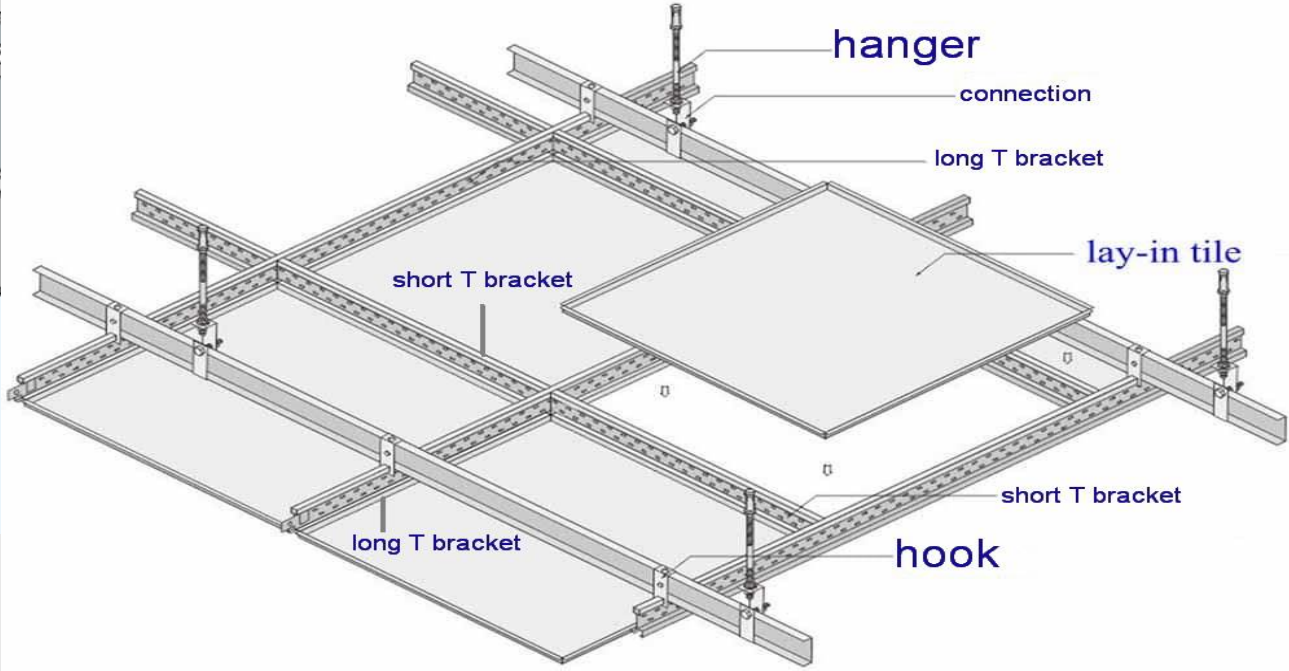

Glass Wool Acoustic Ceiling	Glass wool, fiberglass felt, plaster edge
Fire(Glass)	A(non-combustible)
Environment	E
Acoustic	>0.96 (NRC)
Size	595x595x20mm,600*600*20mm,603x603x20mm 1200x600x20mm
Density	110KG/m3
Color	Black/white/personalized
Accessory	T&L type ceiling brackets
Features	Sound absorbent, thermal insulation, flame resistant, anti-bacteria, easy installation, environment friendly
Application	Cinemas, theatres, auditorium,exhibition galleries, studio rooms, gyms, and shopping malls
